INDEX TO VOLUME LXIV

ADRENAL cortex and medulla, relative importance of, 512.
—— glands, extirpation of, in albino rats, 503.
—— ——, relation of, to blood pressure during cerebral anemia, 44.
—— secretion, conditions determining, 1.
Adrenalectomy, sensibility of rats to intoxication after, 506.
ALVAREZ, W. C. and L. J. MAHONEY. The relations between gastric and duodenal peristalsis, 371.
Amblystoma embryos, extirpation of eye and ear in, 120.
ANDERSEN, E. E. and F. W. WEYMOUTH. Visual perception and the retinal mosaic. I. Retinal mean local sign—an explanation of the fineness of binocular perception of distance, 561.
Antineuritic vitamin, influence of, on internal organs, 181.

BARKER, J. L. See MOORE and BARKER, 405.
Blood clotting in mammals, birds and reptiles, 160.
—— pressure during cerebral anemia, 44.
—— pressures and heart rate in adolescent girls, 252.
—— serum changes after thyroparathyroidectomy, 467.
—— sugar, D:N ratio and respiratory metabolism of depancreatized dogs, influence of acid perfusates on, 348.
BURLAGE, S. R. The blood pressures and heart rate, in girls, during adolescence, 252.

CARD, T. A. See SLONAKER and CARD, 35, 167, 203, 297.
Cardio-vascular activities in women, monthly variations in, 416.
Cerebral anemia, blood pressure during, 44.
CLOUGH, H. D. See MURLIN, CLOUGH, GIBBS and STONE, 348.
——. See MURLIN, CLOUGH and STOKES, 330.
CLOWES, G. H. A. and H. W. SMITH. The influence of hydrogen ion concentration on the fertilization and growth of certain marine eggs, 144.
COOMBS, H. C. See ROGOFF and COOMBS, 44.
COOPER, C. R. See MOORE and COOPER, 416.
CRANE, M. M. See MARSHALL and CRANE, 387.

DIET, control and cure of parathyroid tetany by, 424.
——, restricted, effect of, on reproduction, 35, 167, 203, 297.
DOLLEY, W. L., JR. The relative stimulating efficiency of continuous and intermittent light in the tachina fly, Archytas aterrima, 364.
DORST, S. E. and C. A. MILLS. Comparative studies on blood clotting in mammals, birds and reptiles, 160.
DRAGSTEDT, L. R. and S. C. PEACOCK. Studies on the pathogenesis of tetany. I. The control and cure of parathyroid tetany by diet, 424.
——. See PEACOCK and DRAGSTEDT, 499.
Duodenal peristalsis, gastric and, relations between, 371.

EADIE, G. S. and J. J. R. MACLEOD. The physiological assay of insulin based on its effects on the hyperglycemia following glucose injections and epinephrin, 285.
Ear extirpation in Amblystoma embryos, 120.
Ether, the intra-arterial injection of, 320.
Eye extirpation in Amblystoma embryos, 120.

FAUBION, L. R. See RANSON, FAUBION and ROSS, 311.
——. See RANSON, WINDLE and FAUBION, 320.
FISHER, N. F. The influence of the gonad hormones on the seminal vesicles, 244.
Food tests, biological, 522, 538.
FORBES, A. and L. H. RAY. The conditions of survival of mammalian nerve trunks, 435.

GASES, mixture of air in lungs with, 210, 231.
Gastric and duodenal peristalsis, relations between, 371.
—— secretion, influence of parathyroidectomy on, 499.
GIBBS, C. B. F. See MURLIN, CLOUGH, GIBBS and STONE, 348.
Gonad hormones, 244.
GREENE, W. F. and H. LAURENS. The effect of extirpation of the embryonic ear and eye on equilibration in Amblystoma punctatum, 120.

HAMMETT, F. S. Studies of the thyroid apparatus. X. The refractive index and water content of the blood serum of male and female albino rats thyroparathyroidectomized and parathyroidectomized at 100 days of age, 467.
HARTMAN, F. A., H. A. MCCORDOCK and M. M. LODER. Conditions determining adrenal secretion, 1.
Heart rate, blood pressure and, in adolescent girls, 252.
HEILBRUNN, L. V. The colloid chemistry of protoplasm. I. General considerations. II. The electrical charges of protoplasm, 481.
Histamine, the intra-arterial injection of, 311.
Hormones, gonad, influence of, on seminal vesicles, 244.
HOUSSAY, B. A. and J. T. LEWIS. The relative importance to life of cortex and medulla of the adrenral glands, 512.
Hydrogen ions, effect of, on marine eggs, 144.
Hyperglycemia following glucose injections and epinephrin, effect of insulin on, 285.

INSULIN, extraction of, by pancreatic perfusion, 330, 348.
——, influence of sugars and other substances on toxic effects of, 547.
——, physiological assay of, 285.

LAURENS, H. Studies on the relative physiological value of spectral lights. III. The pupillomotor effects of wave-lengths of equal energy content, 97.
——. See GREENE and LAURENS, 120.
LEWIS, J. T. Extirpation of adrenal glands in albino rats, 503.
——. Sensibility to intoxication in albino rats after double adrenalectomy, 506.
——. See HOUSSAY and LEWIS, 512.
Light, response of tachina fly to, 364.
Lights, spectral, relative physiological value of, 97.
LODER, M. M. See HARTMAN, MCCORDOCK and LODER, 1.
LUNDSGAARD, C. and K. SCHIERBECK. Studies on the mixture of air in the lungs with various gases: I, 210.
II. The quantitative influence of certain factors in producing a

full mixture of hydrogen with air in the lungs, 231.

McCordock, H. A. See Hartman, McCordock and Loder, 1.
Macleod, J. J. R. See Eadie and Macleod, 285.
——. See Noble and Macleod, 547.
Mahoney, L. J. See Alvarez and Mahoney, 371.
Marshall, E. K., Jr. and M. M. Crane. The influence of temporary closure of the renal artery on the amount and composition of urine, 387.
Mattill, H. A. See Murlin and Mattill, 75.
Metabolism, respiratory, of depancreatized dogs, influence of neutral or alkaline perfusates on, 330.
Mills, C. A. See Dorst and Mills, 160.
Moore, L. M. and J. L. Barker. Monthly variations in muscular efficiency in women, 405.
—— and C. R. Cooper. Monthly variations in cardio-vascular activities and in respiratory rate in women, 416.
Morgan, A. F. Biological food tests: I. Vitamin A in some citrus fruit products, 522.
II. Vitamin A in skim milk, 538.
Murlin, J. R., H. D. Clough, C. B. F. Gibbs and N. C. Stone. Extraction of the anti-diabetic substance (insulin) by perfusion of the pancreas. II. Influence of acid perfusates upon the blood sugar, D:N ratio and respiratory metabolism of depancreatized dogs, 348.
——, —— and A. M. Stokes. Extraction of the anti-diabetic substance (insulin) by perfusion of the pancreas. I. The influence of neutral or alkaline perfusates on the respiratory metabolism of depancreatized animals, 330.
Murlin, J. R. and H. A. Mattill. The laxative action of yeast, 75.
Muscular efficiency in women, monthly variations in, 405.

Nerve trunks, mammalian, conditions of survival of, 435.
Noble, E. C. and J. J. R. Macleod. The influence of sugars and other substances on the toxic effects of insulin, 547.

Parathyroid tetany, control and cure of, by diet, 424.
Parathyroidectomy, influence of, on gastric secretion, 499.
Peacock, S. C. and L. R. Dragstedt. The influence of parathyroidectomy on gastric secretion, 499.
——. See Dragstedt and Peacock, 424.
Protoplasm, colloid chemistry of, 481.
Pupillomotor effects of wave-lengths of equal energy content, 97.

Ranson, S. W., L. R. Faubion and C. J. Ross. Vasodilator mechanisms. IV. The intra-arterial injection of histamine, 311.
——, W. F. Windle and L. R. Faubion. Vasodilator mechanisms. V. The intra-arterial injection of ether, 320.
Ray, L. H. See Forbes and Ray, 435.
Renal artery, effect of occlusion of, on urine, 387.
Reproduction, effect of a restricted diet on, 167.
Respiration, mixture of gases in, 210, 231.
Respiratory rate in women, monthly variations in, 416.
Retinal mosaic, visual perception and, 561.
Rogoff, J. M. and H. C. Coombs. Observations on the supposed relation of the adrenal glands to the blood-pressure response during cerebral anemia, 44.

Ross, C. J. See Ranson, Faubion and Ross, 311.

Schierbeck, K. See Lundsgaard and Schierbeck, 210, 231.
Seminal vesicles, influence of gonad hormones on, 244.
Slonaker, J. R. and T. A. Card. Effect of a restricted diet:
II. On pubescence and the menopause, 35.
III. On the number of litters and young born, 167.
IV. On the age of greatest productivity, 203.
V. On mortality, cannibalism and the sex ratio, 297.
Smith, H. W. See Clowes and Smith, 144.
Souba, A. J. Influence of the antineuritic vitamin upon the internal organs of single comb white leghorn cockerels, 181.
Stokes, A. M. See Murlin, Clough and Stokes, 330.
Stone, N. C. See Murlin, Clough, Gibbs and Stone, 348.
Sugars, influence of, on toxic effects of insulin, 547.

Tachina fly, response of, to light, 364.
Tetany, pathogenesis of, 424.
Thyroid apparatus, studies of, 467.

Urine, effect of occlusion of renal artery on, 387.

Vasodilator mechanisms, 311, 320.
Vitamin A in citrus fruits, 522.
—— —— —— skim milk, 538.
——, antineuritic, influence of, on internal organs, 181.
Visual perception and the retinal mosaic, 561.

Weymouth, F. W. See Andersen and Weymouth, 561.
Windle, W. F. See Ranson, Windle and Faubion, 320.
Women, periodicity of circulation and respiration in, 416.
——, —— —— muscular efficiency in, 405.

Yeast, laxative action of, 75.
